

GEORGE JOBE MINISTRIES, INC.

Kingdom Apostolic Network Goals KAN (Relationship to Pastors & Churches)

A. Pastors: Every pastor or ministry leader needs a mentor and a spiritual covering. KAN seeks to provide this spiritual covering by giving protection, identity, and support. KAN seeks to minister to pastors to see each one enabled, empowered, and released in the purposes of God. KAN will assist him in serving, ministering and encouraging credibility.

B. Churches: Each local church remains autonomous in its government; we believe that there is strength in unity. Together we can be more effective than by working alone. We therefore cooperate together by doctrinal interpretations, sharing resources and gifting.

Characteristics, Values, and Priorities.

1. Worship

We are passionate about worshipping God and experiencing His presence manifested in our midst. We use contemporary music and instruments, and encourage visible expressions of heartfelt worship such as banners and dance.

2. World Missions

We believe the Great Commission can be fulfilled in our lifetime. We regularly have short-term mission trips to train, evangelize, and disciple.

3. Evangelistic Outreach

We are committed to reaching the lost and to taking our cities for Jesus Christ. We are involved in many different types of evangelistic outreaches, and we also seek to minister to the poor with food, clothing, and counseling.

4. Discipleship Training

We believe it is imperative for every believer to be disciple and trained. Whether through small groups, bible training centers, Sunday school, etc. The teaching of the word is imperative.

5. Prayer and Intercession

We have experienced the power of prayer and intercession, and are convinced prayer is essential to see God move and the powers of darkness defeated. We encourage intercessors to regularly lift up pastors and ministry leaders.

6. Eldership Government

We consider government of the local church by elders to be the norm in the New Testament. The pastor is the chief among elders, and is looked to as the spiritual and governmental head of the local church. Through mutual submission, this provides accountability and a protective system of checks and balances.

7. Team Ministry

We have experienced greater effectiveness by working as a team, rather than by one strong leader doing everything. We follow the pattern established by Jesus ("two by two") and continued by Paul in ministering with a team of leaders.

8. Reconciliation and Unity

We recognize God's hand in bringing reconciliation and unity among different ethnic and racial groups that have been alienated. We embrace all men as equals, and receive all Christians as brothers in the sight of God.

9. Gifts of the Spirit

We believe the Father's desire is to minister to the Body of Christ through the active use of the gifts of the Holy Spirit. These gifts are given to strengthen and edify the local church, and are a demonstration of the power of God moving among His people.

10. Five-Fold Ministry

We have witnessed the restoration of all five-fold ministry gifts in recent years. We especially affirm the validity of the prophet and apostle, and the tremendous blessing their ministry brings in equipping the saints.

11. Presbytery and Prophetic Ministry

We believe God speaks to His people through prophetic ministry to bring comfort, encouragement, and greater challenge. The prophetic word through presbytery identifies gifts and callings, and brings great confirmation of God's purposes to that individual or couple.

12. Apostolic Oversight

We see around the world God has risen up many strong apostolic leaders to be spiritual fathers and mentors to other pastors. The purpose of the apostle is to serve, encourage, and empower those pastors related to him. In our view, this is always based on relationship rather than structure, and is completely voluntary.
