

How Can I Become a Director (KAN or ANFI)

G12 Vision (*A Director must have 12 or more in a Group*)

The **G12 Vision** is a strategy for [Christian evangelism](#) to fulfill the [Great Commission](#). It is founded upon the idea that every Christian can mentor and lead twelve people in the [Christian faith](#), following the example of [Jesus](#).^[1] It was first modeled in [Bogotá, Colombia](#) by Pastor [César Castellanos \(pastor\)](#) and his wife [Claudia](#) after Castellanos said he had a vision from God instructing him to implement this structure of cell groups of 12. .

The aim of the G12 Vision

The aim of the G12 Vision is to form disciples with a Christ-like character who in turn will 'go and make disciples' as commanded by Jesus. Through prayer, encounters with God, teaching, support and encouragement, disciples are then encouraged to also make disciples. In both theory and example this process leads the church to grow exponentially, without losing accountability of Christian values due to the eventual size of the church.

G12 Methodology

The G12 Vision is based on the methodology used by Jesus to begin his ministry, when he chose the Twelve [Apostles](#). Following his 40 days temptation in the desert, the first act of Jesus in his ministry was to form a group of 12 disciples, ([Mark 3:14](#)). Additionally, in the book of Acts the first action taken by the 11 remaining disciples (Judas Iscariot having been instrumental in Jesus' eventual crucifixion and therefore no longer part of the group) was to re-establish a group of 12. Seeing fit not to leave it at 11, or allow 13, but rather to cast lots, which fell on Matthias, to fulfill the 12. Jesus of course included women in His group of disciples, Mary Magdalene and His own Mother for example. ([Acts 1:26](#)). It was only after the re-established as a 12, that the day of [Pentecost](#) came, although Jesus had already appeared to both men and women and many men and women were present, not just the 12 Apostles, when the Holy Spirit fell at Pentecost.
